

## Angel Blessing for a Wedding

This angel blessing may be used before, during or after a wedding ceremony. If there is a wedding candle it may be lit at this time. Both partners should face each other holding hands. Say the following:

*Angels of love, we thank you that you have brought us together. We thank you for the bond that we share. We ask that as we become one, we strengthen and nurture each other.*

*Guide us in our life together. Show us how to adjust to our role as part of a couple while still retaining our individuality. Show us how to be respectful of each other even in times of disagreement. Let us always be centered in love.*

*We ask that we be blessed as we move forward in the world together. Strengthen our relationship. Help our home to be a safe harbor that comforts and nourishes us.*

*If we choose to have a family, we ask that you bless us with children. Bestow financial blessings upon us. Grant us fulfillment in our worldly tasks. Allow us to be a blessing to others.*

*Help us to understand the feelings of our mate. Guide our communication. Give each of us the tools to clearly communicate our thoughts. Help us to give and receive all our communication from a place of love.*

*We ask that you take the joy of our special day and multiply it for us as we move through life. May we have even more love for each other in the future than we have today. We ask that we may grow old together while our hearts and minds remain young.*

*Thank you for our relationship. Thank you for love and support.*

*We love you. We are grateful.*
